Letter of Notice

Subject: Product Transition Notice BASAL3/BASAL10 to BASAL3P/BASAL10P

Dear Valued Customer,

We would like to inform you of an upcoming change regarding our BASAL product line. We are transitioning from our current BASAL3 and BASAL10 products to new versions, BASAL3P and BASAL10P.

The primary difference between the existing products (BASAL3 and BASAL10) and the new products (BASAL3P and BASAL10P) is the addition of Poloxamer in the latter. Products with the “P” designation contain Poloxamer, while the previous versions do not.

Model #	Catalog #	Qty.	With Additives	W/O Additives
BASAL3	221AD1-1L	27.0g	D-Glucose	L-Glutamine, Sodium hydrogen carbonate
	211AD1-50L	1.35kg		Thymidine Hypoxanthine, Poloxamer, Insulin and other growth factors
BASAL3P	221AD3-1L	28.0g	D-Glucose, <u>Poloxamer</u>	L-Glutamine, Sodium hydrogen carbonate
	211AD3-50L	1.4kg		Thymidine Hypoxanthine, Insulin and other growth factors
BASAL10	221BS1-1L	24.3g	D-Glucose	L-Glutamine, Sodium hydrogen carbonate
	211BS1-50L	1.22kg		Thymidine Hypoxanthine, Poloxamer, Insulin and other growth factors
BASAL10P	221BS4-1L	25.3g	D-Glucose, <u>Poloxamer</u>	L-Glutamine, Sodium hydrogen carbonate
	211BS4-50L	1.27kg		Thymidine Hypoxanthine, Insulin and other growth factors

We have completed all necessary equivalence tests to ensure that the new products meet the same standards of quality and performance as the previous versions.

Poloxamers are guided to be added by customers during the preparation process, but now it is included in the final product. So we changed it to enhance customer convenience and product usability.

As a result, we would like to implement the above changes from January 2026 and we will be offering only the Poloxamer-containing versions (BASAL3P and BASAL10P).

Regarding this, if you have any further questions or concerns, please kindly contact us.
We appreciate your understanding and continued support.

Sincerely,

A handwritten signature in black ink, appearing to be 'Jina Jung', written above a horizontal line.
